Have You Mastered the Fastest Way to Grow Your Company and to Climb the Stairway of Financial Success?

I began studying with the world's top business experts, including Jay Abraham, Chet Holmes, Dan Kennedy, Armand Morin, Michael Gerber, and Tony Robbins. I hired mentors in HR and leadership to help take NCP to a whole new level. We've done so much more than survive the odds since 1997—we have prospered. We now have more opportunities and JVs on the table than ever before to help more entrepreneurs succeed!

After implementing many of the strategies that I learned from these experts, NCP has become one of the most successful and well-respected companies in our field.

I consider all those years of mistakes and successes a distillation process, helping me tailor our services and transform NCP into the place where you go to start a business first” Our goal is to help YOUR Company be everything it can be, too—and more!

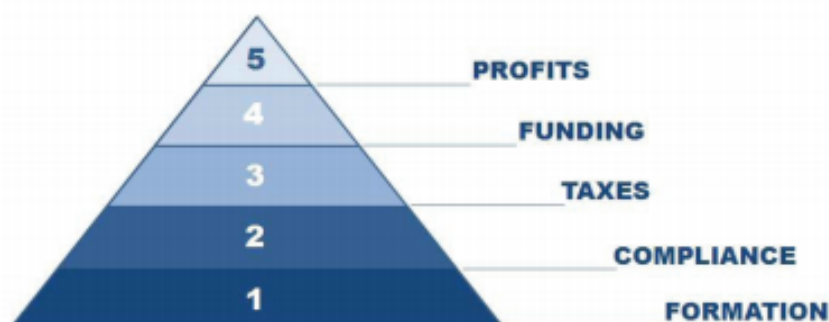

I share my story with you to encourage you and reassure you that you are not alone. I have walked in your shoes. I know what you are facing. The effort may be massive, but your results can be, too—with the proper support.

Today, I actively mastermind and personally network with most of the top legal, accounting, financial, marketing, and Internet professionals in the world. I work closely with hundreds of other top growth experts, regularly attend many of the top seminars worldwide, and invest thousands each year to stay on the cutting

edge of strategy and information. I'll gladly do whatever I can do to help you launch your business with confidence.

First, let's review the 5 essential components of a complete business foundation. You may have started with a complete FORMATION (steps 1 & 2) and our goal for you to complete the steps for a COMPLETE FOUNDATION before your first year in business is complete, ideally in the first 90-days of business.

The 5 Essential Components of a Complete Business Foundation

Complete Formation Checklist

When we form your entity, we want to make sure you have a complete formation so you are protected in case of an attack. Most \$99 incorporating packages provide ZERO protection because they do not have a complete formation. NCP has all the tools and resources to complete each part of this checklist:

- ✓ Determine Which Entity & State is Best CRITICAL
- ✓ Check Entity Name at State & Federal Data Base
- ✓ Filing of Articles & Registered Agent Service
- ✓ Complete LLC or Corporate Record Book CRITICAL
 - ✓ Correct Operating Agreement & Proper IRS Tax Election
 - ✓ Fill out the Record Book Corporate Formalities (Annually)
 - ✓ Including Issuing Stock/Membership Interests
- ✓ EIN Number
- ✓ Bank Account Strategies/Options

- ✓ Capitalization
- ✓ Business License
- ✓ Sales, Income (Federal and State) and Payroll Taxes

Costly Mistakes to Avoid After Formation

Make sure you complete the steps after we form your entity to make sure you have a complete formation. Need support or a resource on any of the steps let us know. See our launch with a confidence training video for support on most of the areas discussed below

- Not completing the entity record book and issuing stock/membership interests
- No capitalization
- No business license
- No buy sell agreement
- No sales tax permits to collect and remit sales tax
- No formalities

Maximize your Business Deductions & Keep the IRS Off Your Back

Small businesses and home businesses are prime IRS audit targets - do you know for sure that your records will stand up to IRS scrutiny? Are your personal and business holdings properly documented, separated, and protected? A few solid documentation steps now will keep the IRS off your back and ensure that you KEEP what you earn by capturing every legal deduction you can. NCP offers complete tools, checklists, and support services that give you the competitive edge of certainty in all of these areas

- Operating a business, not a hobby (if you lose money in business and have no financial records, or 5 years business plan, you may be in trouble)
- Bookkeeping requirements (are a must from the IRS's point of view and to make business decisions)
- Maximizing tax deductions (you are overpaying your taxes if you ONLY rely upon your tax profession to file your return)
- Proper documentation (this is your responsibility, NOT your tax professionals) Annual tax reporting (don't get behind, and planning ahead is a must). Our best tool to help you bullet proof your business from an IRS audit and help maximize your business expenses is Taxbot.com

E-Commerce Seller? Need Support with Sales Tax Registrations?

- Do you need support with sales tax compliance?

This requires many steps and one of the main ones is getting your business registered with sales tax permits. Our team has applied for thousands since 2015 and is able to help your business with this ever changing area of compliance

● Launch Your Business with Confidence Checklist

There are several other steps involved to complete the process and this checklist was developed to help you save time and money and to be protected properly. The checklist is broken into seven important sections, LLC/Corp in Nevada and the foreign registration process, LLC/Corp in your home state process, LLC for safe assets, LLC for real estate, international clients and additional important steps
